

MWS-ST-2

The image displays three views of a mobile phone antenna component, likely a ceramic antenna, against a green background.

- Left View (Front):** Shows the front of the antenna with a white label. The label contains the following text:
 - 形式: NJR4251J B0916
 - 製造元: 日本無線株式会社
 - 電圧: DC+5V±0.2V 無電流
 - 注: 1.50GHz帯用
 - 1019
 - IEC 001YRA
- Middle View (Back):** Shows the back of the antenna, revealing the internal circuitry. The circuit is printed on a green substrate with gold-colored pads. A small yellow component is visible in the center.
- Right View (Internal):** Shows the internal circuitry of the antenna, which is a small, rectangular circuit board with gold-colored pads and a green substrate. The label on the right side of the board contains the following text:
 - S/N: 019742
 - REV: B
 - GND +5V
 - GND -F
 - GND
